

Computer Science Student

# Ben Westphal

## Objective

To gain key experience in the software and web development field either casually, part time or as an intern.

My ultimate goal is to work for a fast-paced company developing interesting and unique software projects where I can develop and refine my skills.

## Education

June 2020 to Present

### Bachelor of Computer Science - RMIT University

A 3-year undergraduate degree that focuses on key skills required for the software and web development industries. I have now completed over half of the credit points required to graduate from this degree with a distinction average across all completed subjects.

### Subjects Completed

Programming Bootcamp 1  
Programming Studio 1  
Mathematics for Computing 2  
Algorithms and Analysis  
Software Engineering Fundamentals  
Introduction to Programming  
Programming 1

### Developed Skills

*Algorithms & Data Structures in Python*  
*Front End, Back End, HTML, CSS, Java, Databases*  
*Data Science and Analysis, Python, SQL*  
*Developing Computing Algorithms, Python*  
*UML and software design, SQL*  
*Java*  
*Java*

### Subjects In Progress

Programming Studio 2  
Mathematics for Computing 2  
Advanced Programming Techniques  
Computing Theory

*Python, LC-3, API's*  
*Data Science and Analysis*  
*C++*  
*Database Design*

## Employment

June 2020 - Present

### Money Coach

First Step Solutions

Working with NDIS participants to help them achieve their financial goals. Effectively incorporating my passion for finance and helping those with disabilities.

## Skills and Languages

Python  
Java  
SQL  
CSS & HTML  
Javascript  
Photoshop  
Excel  
React
